

Richard Calders controversial novella *After the Party: A Nymphomaniad* is a companion to the author's novel *Babylon*. It can be seen as a culmination of Calders' long fascination with issues of eroticism: the association of orgasm with death; the fetishization of the sexual Other as Object; decadence and the politics of "perversion". The setting is an alternate Earth of the late 19th or early 20th century, where female worshippers of Ishtar, long exiled to a parallel world, have returned, changing history by toppling patriarchy and installing a new global order dominated by Orders of sacred prostitutes and the male Illuminati who relish the attendant fleshly circus. The problem for women in this timeline is that although they have in a sense liberated themselves from bondage, forcing men to concede their equality and their power, they have also had to reify themselves in the image of masculine desire, becoming stereotypical maenads or dolls in consequence; nymphomania has become a plague, often of a literal and lethal kind. And males who resent the dictatorship of sensuality, in effect the ideological brothers of Jack the Ripper, have formed a dissident Black Order, dedicated to the destruction of all whores. What occurs in *After the Party* is the tentative, only vaguely successful reconciliation of the conflicting opposites, as a doctor belonging to the Order encounters a prostitute who draws him platonically as well as physically; the fatal psychological contradictions of the late Victorian Age come into sharp focus, and Calder achieves a powerful bleak finale.

Selected Letters of Raymond Chandler, *Incubus Among Us #1* (Shifter Romance), *Taming A Gentleman Spy* (The Spies of Mayfair Book 2), *Dictionary Of National Biography, Volume 58...*, *The Connected Child: Bring hope and healing to your adoptive family*, *The Aids Reader--Documentary History of a Modern Epidemic*, *The Grey Fairy Book*,
