

COUNTING THE EONS by Isaac Asimov, Doubleday, 1983, First THUS. This is a Collectible, Hardcover book and dust jacket. As you may have guessed, Isaac Asimov is back with a new collection of essays that show him ever true to wizardly form. Here is the Good Doctor explaining everything you always wanted to know about sub-atomic particles but didn't know how to ask; searching for the missing mass of our universe; playing around with atmospheric pressure; pinpointing the center of gravity within the solar system; reflecting on why Einstein's theory of relativity seems to violate common sense; even speculating about what Milton would be doing if he were alive and well and living in the twentieth century! A Very Informative piece of analytical work!
