

Dragons and firebirds, fairies and orcs: these are just a few of the residents of The Mythic Bestiary. A whole menagerie of make-believe beings from the earth, water, and air inhabit these stunningly written and eye-catching pages, from Japan's Yukki-onna, a beautiful but deadly spirit who appeared to stranded travelers, to the two-headed venomous snake Amphisbaena, which hailed from the imagination of the Greek poet Nicander. Many are hybrids such as the Quetzalcoatl, the Aztecs' gorgeous combination of serpent and bird; others, more monstrous, tested the mettle of ancient heroes. A few, like the gigantic winged lion, lammasu served as guardian angels, warding against evil spirits. This guide gives not only a taxonomy of size, appearance, habitat, and powers, but also provides vivid descriptions of the cultures that produced them.

Juiced: Wild Times, Rampant Roids, Smash Hits, and How Baseball Got Big, Mistaken Identity III: The Perfect Woman For Them, Broken By Truth, King David, Personalized Nutrition: Translating Nutrigenetic/Nutrigenomic Research into Dietary Guidelines (World Review of Nutrition and Dietetics, Vol. 101),
