

Hailed as a landmark science fiction series, the Sten novels have thrilled millions of readers all over the world. Set three thousand years in the future, they tell the tale of a tough, street-wise orphan who escapes his fate as factory planet delinquent to become the strong right-hand of the most powerful man in the Universe--a man hailed by his billions of subjects as The Eternal Emperor. This mammoth volume collects the first 3 novels in the classic modern space opera series: STEN, THE WOLF WORLDS, and THE COURT OF A THOUSAND SUNS. STEN Born on Vulcan, a factory planet where human life has less value than the lowliest machine, Sten rebels against The Company following the mysterious death of his parents. He harasses the Company from the mazelike warren of tunnels beneath the planet. He could have been just another delinquent -- but people like Sten never give up... THE WOLF WORLDS When the Emperor needs to pacify the Wolf Worlds, the planets of an insignificant cluster that have raised space piracy to a low art, he turns to Mantis Team and its small band of militant problem-solvers. Sten's destiny is in his own hands. THE COURT OF A THOUSAND SUNS. Having fought his way from slave labor on a factory world to commander of the Eternal Emperor's bodyguard, the most dangerous weapons Sten has encountered in Prime World are the lies of Court politicians. When a bomb goes off, however, he discovers the danger and corruption behind Court intrigue.
